

Southeast Asia Organic

Where People meet Organic

Eco-Social Perspective

Eco social is one of our missions to support and improve the life of local farmers.

We offer them fair wages and benefits based on Thailand's employment and labor law and provide them with trainings, tools and safety equipment to save them from work accidents & injuries.

Our factory has also been certified international standards. Moreover, they aim at environment friendly processes. They have water clarifier and wastewater treatment tank and a prepared area for making compost which is made out of unused raw materials (soil, leaves, etc.).

COMPANY PHILOSOPHY

Certified international standards Factory

We are well aware
of legitimacy and
safety for all staff as
well as the
environmental care.
